Experiment 2

Prepare an SRS document in line with the IEEE recommended standards for the specified Case Study. (Non-Functional Requirements.

Non-Functional Requirements

1. Response Time:

The system should respond to user interactions within a reasonable timeframe, typically less than 2 seconds, to ensure a seamless and user-friendly experience.

2. Data Retrieval Speed:

External APIs for question retrieval should provide responses within 5 seconds to ensure quick question loading during interviews.

3. Feedback Generation Time:

The system should generate feedback reports for users within 10 seconds of completing a mock interview to provide timely insights.
